

1 Basic Technology Education (018) and Construction (024), was issued on November 3,
2 1997, and expired on June 6, 2003. Petersen did not submit an application for renewal
3 prior to the application submitted on June 4, 2012. Petersen is not currently employed by
4 any known Oregon School District.

- 5 2. A review of Petersen's application noted Petersen answered "No" to all the application's
6 character questions and signed and dated the form on May 29, 2012. Petersen answered
7 "No" to question number four (4), "Have you ever had any adverse action taken on a
8 professional certificate, license or charter school registration?"; and question number
9 six (6), "Have you every surrendered a professional license of any kind before its
10 expiration?", and question number seven (7), "Have you ever been disciplined by any
11 public agency responsible for licensure of any kind, including but not limited to
12 educational licensure?" The Commission discovered during the background check
13 portion of Petersen's application processes that Petersen's California teaching credential
14 was revoked in 1996 for failure to report to work after signing a contract.
- 15 3. Commission investigators questioned Petersen about the discrepancy. Petersen advised
16 that he had hurried through the application and as a result, failed to answer the
17 questions accurately. Petersen explained that his prior, 1995-1996, discipline by the
18 California Commission was a result of Petersen not returning to work after a layoff
19 period, which was a violation of his teaching contract. Petersen advised that he chose not
20 to fight the California discipline and "defaulted" during the process, resulting in his
21 California Credential being revoked. This was verified through documents from the
22 California Commission on Teacher Credentialing.
